

Find the rate plan suited to your energy needs.

EVEN BILL Even Bill is perfect for anyone who wants to pay the same bill amount every month, for 12 months. The amount you pay is recalculated every year based on your energy use habits, and there is no true-up at the end of the 12 months. Budgeting is a breeze with Even Bill!	FIXED RATE Our most straightforward rate, the Fixed rate is ideal for high energy users and those who like simplicity and comfort. You'll pay one low energy rate (per kWh) for the power you use. Fix it and forget it!	NITEFLEX NiteFlex gives you up to 400 kWh of free electricity each month to charge your electric vehicle or run your smart appliances during super off-peak periods. This rate is ideal for anyone who can shift energy use to times of day when energy prices are the lowest.	SMART CHOICE On the hottest days of the summer – Energy Saving Peak Days – we'll ask you to conserve energy from 2-7 p.m. Your peak service charge is determined by the highest energy need that you demand during that time and will affect your rate for up to the next 12 months. This rate is ideal for super energy savers who want to be rewarded with lower electric bills.	STANDARD The standard rate is higher in the summer and lower in the winter, so your bill will fluctuate along with the season as well as with your usage.
